DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Chinese Traditional and Herbal Drugs (2001), Vol. 32, pages 232-236 (The Prior Art).

The Prior Art shows the effect of ginsenoside on proliferation of the human osteosarcoma cell U₂OS, wherein, it is disclosed that the ginsenoside F1 will inhibit the process of U₂OS cell cycle (see pages 233-234). The Prior Art does not disclose the instantly claimed properties of ginsenoside F1; however, products of identical chemical composition cannot have mutually exclusive properties. A chemical composition and its properties are inseparable. Therefore, if the prior art teaches the identical chemical structure, the properties applicant discloses and/or claims are necessarily present.

Conclusion

3. Claims 1-6 are pending. Claims 1-6 are rejected. There are no allowed claims.
